COVERT

EXTREMELY QUICK COVERT INSTALL

Combine a fast covert installation with an advanced feature rich design and you have a GPS tracking solution that is simply powerful. The device can be fitted covertly in minutes to any car or light duty vehicle.

Using the OBDII port and a Y-adaptor cable conceals and secures the device leaving the OBDII port open. The device pulls the VIN, and engine diagnostics directly from the vehicle. With an integrated GPS engine, accelerometer, integrated cellular and GPS antennas, this product is the ultimate solution for automotive and BHPH lenders to secure vehicle collateral and reduce the lending risk in their portfolio.
